

Coding at Home

Download Java:

1. Go to <https://java.com/en/download/>
2. Click “Free Java Download”
3. Click “Agree and Start Free Download”
4. Open the file you downloaded
5. Double click on the box icon to begin installation
6. Follow steps of installation manager

Download JGrasp:

1. Go to <https://www.jgrasp.org/index.html>
2. Click on the download option in the top sidebar
3. Click to download the appropriate package (the one next to your system, so probably Windows or Mac)
4. Run the file it downloads
5. Follow the instructions of the installation manager
6. Open JGrasp from Applications
7. Create your first JGrasp file on your computer
